Dear Sam:

You are tops in my book! The document relocation project you helped organize and execute was successful and couldn't have gone more smoothly. A total of 420 boxes of records and 52 file cabinets all arrived unscathed. Both you and your team - Yaniv, Joseph, Segundo, and others - demonstrated a great deal of professionalism which helped make all parties involved confident we had chosen the right people for the job. Indeed, your driver arrived at the destination address – some 2200 miles away - *ahead* of schedule and even had the courtesy to telephone me with delivery status! The associates at our corporate office (receiver) had only compliments to share with me regarding his pleasant demeanor and willingness to reach beyond their expectations.

You certainly have the finest team assembled and I freely endorse your services to all who demand only THE BEST!

Sincerely,

Antonio De Rosa  
Office Manager
