Gadi Avigzer  
North Star Moving Corporation  
9324 Corbin Ave.  
Northridge, CA 91324

Dear Gadi,

It is with great pleasure and appreciation that I write to thank you and North Star for the exceptional job on the two-phase move of the Jim Henson Creature Shop from Burbank to Hollywood.

Every aspect of the move, from the initial estimate to the post move follow-up was professional and efficient.

The diversity of items you were requested to pack and move, from priceless soft puppets to delicate computer puppet control performance systems, was handled with the appropriate degree of care. The crew was professional, courteous, and efficient. They worked together like a well-oiled machine. I particularly liked the way Northstar employees interacted with the Jim Henson Company staff during the move, asking questions and getting clarification on issues that otherwise would have to have been corrected at a later date.

Not only would I recommend your services to anyone that asks, but I already have (as you know) with equally great results.

And last but not least, both phases of the move came in significantly under the budget estimate.

When we next have occasion to use moving services, you can be assured we will call Northstar.

Best,

  
Joseph Henderson  
Vice President, US and UK Administration
