Dear Gadi,

It is with great pleasure and appreciation that I write to thank you and your team for the exceptional job on our over night move to our new office building.

The whole process, from the initial estimate to the move itself, was professional and efficient.

The complexity of moving our old offices, where we were resident for 11 years, to our new location over nigh demanded larger than usual team and extremely delicate coordination.

Spending the night of the move with your team, I found them highly efficient and professional as they took extra care in moving our extensive library of posters and awards.

I would definitely use NorthStar in the future and recommend your services to our friends and associates.

With my best regards,
